

10 RERF - Purpose

RERF is used to replace CA benefits that have been lost, stolen, or destroyed.

To access RERF from WARD, key X in the ADD REPLACEMENT field, and press ENTER.

The benefit being replaced must have one of the following Document Status Codes on AFIH, or a SEVERE edit message displays:

- CANCELD (Cancelled)
- OUTSTND (Outstanding)
- REDEEMD (Redeemed)

When this occurs, press the F9 key to exit RERF.

(See [Replacement Request for Warrants Overview](#))
