

.01 Jobs Reconciliation

REVISION 07
(01/01/09 – 03/31/09)

At the interview, key the RM Work Registration Code in the PAR/EXEM field on WORW for the participant when no exemption exists. (See [Jobs Exemptions](#))

NOAA is sent by Jobs informing the participant of a sanction. When this occurs, the participant must comply with the Jobs Program before the next NOAA to avoid further sanctions.

Consider an application that includes a noncompliant participant as a new application. The new CA work eligible individuals must complete the [Jobs Program Preliminary Orientation](#) (JPPO) process before benefits are approved. (See [Ending CA Sanctions](#) for active CA cases. See [Reapplication After Sanction](#) for inactive cases)
