

I Tribal NEW Reconciliation

At the interview, key the RT Work Registration Code in the PAR/EXEM field on WORW for the participant.

Process the application to determine whether the budgetary unit will be eligible when the noncompliant participant reconciles with Tribal NEW. When the budgetary unit will NOT be eligible even with Tribal NEW reconciliation, deny the application. Send the [appropriate notice](#).

When the budgetary unit is otherwise eligible, refer the noncompliant participant to Tribal NEW as a walk-in by sending the [A742 notice](#). This notice informs the PI that the noncompliant participant has ten days to go to Tribal NEW and reapply before benefits are released. The A742 also states that failure to do so will result in denial of the application.

When the participant completes three days of Tribal NEW compliance, Tribal NEW informs the FAA local office of reconciliation. Place a copy of the notice of reconciliation in the [case file\(g\)](#).

When notification of reconciliation is not received within ten calendar days of the mail date of the notice, deny the application. Key the TN Denial or Closure Reason Code on AFED. Send the [A283 notice](#) to inform the PI of the denial.
