

A Eligibility for Pregnant Women

Pregnant participants may be eligible for the following:

- [1931E](#) (3W) or [S.O.B.R.A.](#) Woman (SW) MA categories regardless of the month of pregnancy.
- [31-PG and Tribal CA-PG](#) when they are pregnant and have no other dependent children. To be determined eligible, participants must be in the last trimester of pregnancy, and be otherwise eligible.

[Pregnancy must be verified](#). Accept the participant's statement for verification of [EDD](#).

When all 1931 eligibility factors are completed in [AZTECS](#), the pregnant woman (and later the Unborn, through the Deemed Newborn automated process) is determined in the 1931 category. The 1931 eligibility factors include keying deprivation on SPRD.

When all 1931 eligibility factors are NOT completed in AZTECS, the pregnant woman is determined as a S.O.B.R.A. Woman. The Unborn is updated as Deemed Newborn (NB) through the Deemed Newborn automated process.

WARNING

Determine MA eligibility in another category for a participant who was identified as pregnant when either of the following apply:

- Not pregnant
- Does not provide verification of pregnancy (See [No Proof of Pregnancy](#))
