

.06 Disqualification of GLAs

REVISION 48

(01/01/20 –12/31/20)

A GLA may lose its certification from ADHS or DDD. When this occurs, residents of the GLA are ineligible to receive NA.

When notified of the loss of certification, the Policy Support Team (PST) completes the following:

- Close the cases using the RI Denial or Closure Reason Code
- Send the PI of each GLA budgetary unit a written notice (F200) of the change in eligibility status.
- Do not allow for [NOAA](#). The loss of the facility's certification is not controlled by or appealable under the NA program.

When a GLA is disqualified by FNS, residents may only apply on their own behalf. In this situation, consider the following:

- The participants must meet the definition of an [NA budgetary unit](#)
- Benefits may not be turned over to the GLA to purchase either food or meals

When the GLA loses certification, the Policy Support Team (PST) must ensure the GLA is removed from the HEAplus Institution List. (See [Maintaining Institutions in HEAplus](#))
