

.02 Documents Not Provided – Citizenship NOT Questionable

When the participant's citizenship is not questionable for FS and CA, but the participant does not provide acceptable verification for MA and the PST has given approval to complete the determination, key the following on IDCI:

- Y in the ID field
- The appropriate [verification code](#) (NOT ID OR AD) in the VR field
- US in the CI field
- The appropriate verification code (NOT CD OR AD OR EX) in the VR field

This allows AZTECS to determine potential eligibility for CA and FS, and to fail the MA for U.S. citizenship.

NOTE When the participant is a [Deemed Newborn](#) AZTECS displays AG in the ID VR field and CD in the CI VR field. This allows eligibility for all programs.

WARNING

This does not apply to MA renewal applications.
