

.01 Determining VQ/RWE Good Cause

The participant's work registration status on WORW indicates whether NA E&T, Jobs, Tribal NEW or FAA is responsible for determining VQ/RWE good cause. Complete the following:

- When the NA participant is a current [NA E&T](#) participant or the CA or TPEP participant is a [Jobs Basic](#) participant, an alert displays in ACTS. FAA is advised to impose the required penalty when the Jobs administration staff determine the participant does not have good cause for VQ/RWE.

NOTE Status changes are interfaced from the Jobs system (JAS) into ACTS.

- When the [TPEP Primary Wage Earner](#) participant is a Jobs BASIC or Tribal NEW participant, FAA is advised by ACTS to start withholding TPEP benefits. FAA makes the changes on AFPD that are required to withhold benefits.

When the CA or NA participant is not a Jobs, Tribal NEW, or E&T participant, complete the following:

- Review [VQ/RWE Good Cause Reasons](#).
When the participant meets the good cause requirements, document the [case file\(g\)](#).
- Key Y in the GD CAUSE CODE Y/N field on VOQS.
- Key the participant's Work Registration Code for the applicable programs on WORW.
- When the participant did not have good cause and the VQ/RWE took place during the appropriate [VQ/RWE Time frames](#) impose the disqualification. (See [VQ/RWE Disqualification](#))
