

## **08 NA Employment and Training (NA E&T) - Overview**

The NA Employment and Training Program (NA E&T) is a work program that is designed to complete the following:

- Promote participant employment.
- Providing the training necessary to obtain employment and decrease NA dependency.

Jobs staff through its NA **E&T** section provides job search and job placement assistance to all mandatory NA E&T participants.

All NA participants whose names appear on a signed **FAA [official application](#)** are registered for the NA E&T program.

Each eligible participant must be screened to determine NA E&T registration or participation status.

A participant who meets one of the NA **[E&T Registration Exemptions](#)** is exempt.

A participant who is NOT exempt from the registration exemption criteria must be screened for an NA **[E&T Participation Exemption](#)**. A participant who meets one of the NA E&T participation exemptions is exempt.

All participants who do not meet either a registration or participation exemption must be assigned a mandatory participation status. These participants must participate in the NA E&T program.

NA participants who are exempt from E&T registration or participation may choose to **[participate voluntarily](#)**.

Participants who meet either of the following cannot participate in the NA E&T program:

- **[Disqualified NA participants](#)**
- **[NA nonparticipants](#)**

NA E&T registration participation status for each participant is determined at each new and renewal interview.

There are penalties associated with failure to comply with the NA E&T program requirements. The penalty varies depending on both of the following:

- Whether the participant is the [NA E&T Lead Participant](#)
- The nature of the [NA E&T Noncompliance](#)
