

F Categorical Eligibility Verification And Documentation

Do not verify the [categorical eligibility factors](#) that have been verified for CA, SSI, or GA, for the purposes of determining eligibility for FS.

Income information received from SSA or used for the CA or GA determination may not be sufficient for FS purposes. Verify the income for the purpose of completing the FS benefit calculation when any of the following occurs:

- Types of countable income for FS are different than for CA, GA, or SSI.
- SSA fails to send verification of income to FAA.
- Verification is questionable.

Verify [budgetary unit composition](#) and factors affecting it only when questionable.

Apply all FS verification requirements not listed as categorical eligibility factors.

Clearly document CADO and the case file to show that it is a categorically eligible FS case.
