

.01 Family Planning Extension Program (FPEP) Renewal Process - Overview

REVISION 02
(10/01/07 - 12/31/07)

When the participant has received 12 months of Family Planning Extension Program (FPEP) services, AZTECS sends an FPEP renewal notice to the PI. The notice informs the participant that in order to continue receiving FPEP services through AHCCCS, an MA application must be turned in.

EXCEPTION

The FPEP participant is not required to submit an application when a renewal for MA was completed for the FPEP participant's budgetary unit within the past 60 calendar days.

A report will be generated each month identifying both of the following:

- 12 months of FPEP has been received
- An MA renewal was completed for the budgetary unit within the past 60 calendar days.

FAA Research and Analysis (R&A) will complete the FPEP renewal.

Once an application is received, FAA determines whether the participant meets either of the following:

- Eligibility for MA under one of the [Title XIX MA categories](#).
- Eligibility for the remainder of the 24 month of FPEP.
