- Income exceeds the income limit for [Title XIX MA](#)

Once AZTECS determines the FPEP participant is not eligible for MA, AZTECS displays one of the following Denial or Closure Reason Codes in the DEN/CL REASON field on MADA next to the FPEP participant:

- IP when the participant is eligible for FPEP.
- EI when the participant's income exceeds 150% of the FPL.
- CC when the participant has creditable insurance.

NOTE The EI Denial or Closure Reason Code displays on MADA when the participant is both income ineligible and has creditable insurance.

Send the [M205 notice](#) when one of the codes above displays on MADA.

FPEP participants are identified on CAP2 by displaying FPEP in the PART RENEW field.
