

B Monthly Rollover

The monthly rollover process (for ongoing cases) copies the previous month's benefits and information from all of the eligibility screens and establishes benefits for the next month. (See Example [Monthly Rollover](#))

Cases in which the following situations exist are de-authorized by AZTECS and are not included in the monthly rollover process:

- Benefit months have not been authorized up to and including [current system month\(g\)](#) for new applications
- An NA renewal is due for the benefit month
- The benefit month includes an [NA student](#) who turns 18 in the month and has earned income
- The benefit month includes a [dependent child](#) in the CA budgetary unit who turns 19 during the month
- The benefit month was created using [Copy Details](#) and was not authorized
- The previous benefit month's benefits are on hold
- A CA or NA [overpayment](#) exists and the amount to be recouped for the benefit month is different than the amount recouped in the previous month
- MAGH was processed even though no changes were keyed
- The benefit month has an open CA or NA program with a prorated benefit amount different than the CA or NA program with regular monthly amounts
- The CA benefit month has a sanctioned participant who has not had compliance updated on DISA
- The NA benefit month has an [able bodied](#) participant who has received three countable months benefits and an exemption reason has not been keyed or an extension has not been authorized
- The benefit month includes a [benefit capped child](#) and the [Family Benefit Cap Period](#) has ended
- The benefit month includes a [CA Unwed Minor Parent](#) who turns 18 in the month
- The MA renewal month, when the entire budgetary unit consists of [FES](#) participants

- The benefit month is the month following any extended month and no exemption reason has been keyed
- The program is closed or is in RE status
- The benefit month is the month following expiration of MA [Four Month Continued Coverage](#)
- The benefit month is the month following expiration of TMA [T2](#)
- A case has had information changed on the eligibility screens and benefits have not been authorized

NOTE These situations require the EI to authorize benefits.
