

11 Replacement Request for Warrants – Overview

When it is determined that a replacement CA benefit must be issued, issue it no later than three [workdays\(g\)](#) from the date non-receipt was reported.

NOTE When the lost or stolen benefit included a recouped amount, AZTECS cancels the recouped amount from the system. AZTECS assigns a replacement issuance number and makes a replacement issuance during the next daily run.

Key the appropriate Replacement Reason Code in the Replacement Reason field. Press ENTER to generate the replacement CA issuance through AZTECS.
