

**01 ADDR/ADFF - Purpose**

ADDR is used to maintain addresses and other information in a case, including but not limited to the following:

- Residential and mailing addresses
- Telephone numbers
- Email addresses

(See [ADDR Overview](#))

ADFF is a work screen displayed by AZTECS. It is used to assist in keying address information in the format approved by the United States Postal Service.

(See [ADFF Overview](#))
