

A CA Case Participation

The proper relationship and age requirements must exist between the participant and the dependent child. Once this has been established, the EI must then determine which of the others listed on the application, when otherwise eligible, must be included. This is based on relationship to the dependent child.

Whenever two or more participants eligible for benefits can be included in one single CA budgetary unit, two or more budgetary units cannot be authorized. Determine CA participants from the following:

- [Mandatory CA participants](#)
- [Optional CA participants](#)
- [Receipt of Supportive Services ONLY](#)
- [CA Deemed Income](#)
- [CA Nonparticipants](#)
- [Disqualified CA Participants](#)
