

03 **Disqualifications and Sanctions - Overview**

REVISION 18
(10/01/11 - 12/31/11)

DISA is a series of work screens behind PRAP used to key sanctions and disqualifications. There are two separate DISA screens (PAGE 1 and PAGE 2) for each unique participant-program combination.

Each participant's DISA screens are used to key and display the following disqualification information for that participant:

- [CA Sanction](#) History
- CA and NA Voluntary Quit
- CA and NA Intentional Program Violation History
- CA and NA Fraud Disqualification History

MA disqualification history is keyed in the documentation lines on DISA (PAGE 2).

The first DISA (PAGE 1) screen is used to key the following:

- Imposing a CA Sanction
- Reason sub code for a CA **DCSE** sanction
- Ending a CA Sanction

The second DISA (PAGE 2) screen is used to key the following:

- CA and NA Voluntary Quit/Reduced Work Hours History
- CA and NA Intentional Program Violation History
- CA and NA Fraud History
- Documentation regarding the participant's CA sanctions, MA or NA disqualifications

(See [Disqualifications Keyed on DISA](#) for procedures for keying CA and NA disqualifications)
