

## .01 Jobs Reconciliation

At the interview, key the RM Work Registration Code in the PAR/EXEM field on WORW for the participant when no barrier or exemption exists. (See [Jobs Exemptions](#))

### EXCEPTION

Key the SA Work Registration Code in the PAR/EXEM field on WORW for the participant when both of the following occur:

- The CA case is closed.
- The closure reason is due to a 100% Jobs sanction.

NOAA is sent by Jobs informing the participant of a sanction. When this occurs, the participant may call the Jobs case manager and demonstrate an intent to comply before the expiration date of the sanction notice.

Consider a new application that includes a noncompliant participant as an [intent to comply](#) with Jobs. (See [Ending CA Sanctions](#) for active CA cases. See [Reapplication After Sanction](#) for inactive cases)
