

03 Counter Display for Cash - Overview

REVISION 07
(01/01/09 – 03/31/09)

Effective December 01, 1996, the Personal Responsibility and Work Opportunity Reconciliation Act ([PRWORA\(g\)](#)) was implemented. PRWORA limits the length of time that an eligible CA budgetary unit may receive CA benefits. The Counter Display for Cash (CODC) screen tracks CA and displays CA benefit information pertaining to Lifetime Benefit Limit [LIBL\(g\)](#).

When a Y is keyed in the AF field on WERE, CODC displays.

To view CA payment history, key Y in the HISTORY field on CODC.

When N displays in the HISTORY field, there is no historical information.

On CODC, the first character of the two-character code that displays under the JAN ... DEC fields identifies a [Tribal TANF](#) case. Beginning with the benefit month of November 2006, the first character displays as follows:

L = Hopi
