

01 VEHI – Purpose/Overview

REVISION 43
(08/01/16 – 09/30/16)

In AZTECS **VEHI** is used to capture participant vehicle information.

Although vehicles are not counted in the resource determination, keying vehicle information on **VEHI** is an indicator of other potential situations needing additional exploration, such as, but not limited to the following:

- Expenses Exceed Income (EEI)
- Employment and Training (E&T) Hardships
- Childcare Transportation Expenses

Verification is not required unless questionable.

WARNING

For recreational vehicles and trailers, see [Other Asset Types](#).

For information on how to key in AZTECS use the AZTECS Yellow Pages.
(See [FAA7](#))
