

## 05 Other Assets – Verification

Property information in the [case file\(g\)](#) that is current and valid needs no further verification. (See [Other Assets Required Verification](#))

Verify other assets as follows:

- For CA, the value of all countable other assets must be verified at the following:  
New application  
Renewal application  
When a [change in resources](#) is reported
- For NA, other asset information must always be verified before approval or renewal, when the information is [questionable or inconsistent](#). When the participant has difficulty obtaining verification timely, offer assistance
- For MA, for the MD category only, the value of all countable other assets must be verified at the following:  
New application  
Renewal application  
When a change in resources is reported

Policy and procedures regarding verification of other assets is outlined as follows:

- [Other Assets - Required Verification](#)
- [Other Assets - Sources of Verification](#)
- [Other Assets - Methods of Verification](#)

(Also, see [Verification Cooperation](#))
