This section contains information about income received from newspaper delivery.

Policy

Income derived from newspaper delivery is countable as [self-employment\(g\)](#) when it meets the self-employment definition.

See [Allowable Self-Employment Expenses](#) for qualifying expenses allowing a 40% self-employment expense deduction.

When newspaper delivery does not meet the definition of self-employment, FAA considers the income from newspaper delivery as countable earned income.

Countable income is used to determine an income budget. (See [Income Budgeting](#) to see how FAA determines the income budget.) FAA needs to know about income that is both countable and not countable to determine whether a budgetary unit's income is exceeding their expenses. (See [Income Eligibility](#) for more information about how FAA uses countable and not countable income.)

Procedures

Determine whether newspaper delivery income is countable as self-employment or countable earned income.

When newspaper delivery is self-employment, discuss with the participants their business expenses.

See [Budgeting Self-Employment](#) for how to determine the correct budgeting method.

When the participant is present, have them sign the Authority to Release Information (FAA-1765A) form to contact any companies or businesses involved. The FAA-1765A can be faxed or emailed to the participant's employer when it is not possible to use the Application for Benefits (FAA-0001A) or the HEAplus Authority to Release signed statement.

Documentation must support determinations of eligibility and benefit level. Document in sufficient detail to ensure that any reviewer can assess whether the determination is reasonable and accurate. Include specific information regarding the reason the income is determined to be

reasonably expected to continue. (See [Budgeting Income Documentation Requirements](#) for additional information.)

Verification

System interface and the [case file\(g\)](#) must be reviewed before verification is requested. No additional verification is needed when AZTECS interface or HEAplus hubs have verified the information.

The participant has the primary responsibility for providing verification. (See [Participant Responsibilities – Providing Verification](#) for additional policy.)

When self-employment expenses are not verified, eligibility is determined without the 40% Self-Employment Expense deduction.

For NA, income is required to be verified for **all** of the following before eligibility is determined:

- When reported on a new application, during the interview of a new application, or changes reported before the eligibility determination of a new application.
- For changes reported after an eligibility determination of a new application (e.g., a renewal application, mid approval contact, etc.) and **any** of the following apply:

The source of the income has changed.

The income is [questionable\(g\)](#) or [unclear\(g\)](#).

The reported income amount has changed by \$51 or more.

The previous verification in the case file is more than 59 [calendar days\(g\)](#) old.

For CA, all income is required to be verified before determining eligibility.

When the participant is present, have them sign the Authority to Release Information (FAA-1765A) form to contact any companies or businesses involved. The FAA-1765A can be faxed or emailed to the participant's employer when it is not possible to use the Application for Benefits (FAA-0001A) or the HEAplus Authority to Release signed statement.
