

.02 Not Countable Support - CA or MA

REVISION 13
(07/01/10 – 09/30/10)

AZTECS is programmed not to count certain support payments. When support payments received are keyed on UNIC, they are not counted towards CA when any of the following apply:

- The payment is intended for a child in the home who is not included in the budgetary unit.

NOTE This includes children who are not included due to [lack of deprivation](#).

- The payments are small nonrecurring [gifts](#) that do not exceed \$30 per quarter, per child, from an absent parent.
- The payment is a [vendor payment](#), such as rent or mortgage paid directly to the landlord or mortgagor by the absent parent.
- The payment is an [In-kind benefit\(g\)](#) provided by the absent parent.
- The payment is intended for a [Benefit Capped child](#) or a child receiving Supplemental Security Income (SSI) in a CA budgetary unit.

WARNING

Do NOT budget any support payments that are ASSIGNED and RETAINED by DCSE after CA or MA approval. (See Example [Child or Medical Support 1](#) and Example [Child or Medical Support 2](#)).

EXCEPTION

Child support payments issued through DCSE to CA participants during the three month Grant Diversion time frame are [COUNTABLE](#).

MA EXCEPTION

Payments intended for a Benefit Capped (BC) child in a CA budgetary unit are [COUNTABLE](#).
