

## **D Deeming Budget Record (FA-201)**

The Cash Assistance Deeming Budget Record (FA-201) form is used to manually calculate an amount of income to budget from a participant whose income is deemed.

Two or more minor parents may be living with the adult parent and applying for CA for themselves and their children. When this occurs, the FA-201 must be used when the adult parent's income must be deemed. (See [Completing the FA-201](#))
