

## A AHCCCS Pre-enrollment

The participant may select an AHCCCS health plan during the interview. The process of the health plan selection is called pre-enrollment.

NOTE AHCCCS automatically assigns a health plan for participants who do not pre-enroll before approval.

Policy and procedures regarding the AHCCCS pre-enrollment process are outlined as follows:

- [Informing the Participant of AHCCCS Pre-enrollment](#)
- [Pre-enrollment at the Interview](#) (the EI keys)
- [No Pre-enrollment](#)

### EXCEPTION

Participants who are approved for [Federal Emergency Services \(FES\)](#) are not enrolled with an AHCCCS health plan. AHCCCS determines whether the medical services provided qualify as an emergency episode, and pays on a [fee-for-service](#) basis. Do NOT advise the participant who does not meet citizenship requirements to pre-enroll.
