

.17 Changes with Unknown Effect Verified Timely - Simplified Reporting

When a reported change is verified timely, change the benefits as follows:

- For benefit increases, complete the following:
For CA, increase benefits for the first regular benefit ISSUED after the date the change was reported.
For FS, increase benefits for the first regular benefit ISSUED ten calendar days after the date the change was reported. The benefits must be increased no later than the month after the month the change was reported.
There is no requirement to allow ten days to notify the participant that their benefits will increase.
- For benefit decreases, decrease benefits for the first regular benefit ISSUED after the date the change was reported, allowing for [NOAA](#).

NOTE NOAA must expire prior to the first day of the affected month.
