

## A Changes That Must Be Reported - Simplified Reporting

REVISION 40  
(02/01/16 - 03/31/16)

The participant is required to report when the gross monthly income of the budgetary unit exceeds the gross income standard as follows:

- For CA, the participant must report when the gross monthly income of all participants included in the CA budgetary unit exceeds 36 percent of the 1992 FPL (A1 payment standard). This includes income of participants with a Participation code of DF or DI.
- For NA, the participant must report when the gross monthly income of all participants included in the NA budgetary unit exceeds 130% of the current FPL. This also includes income of participants with a Participation code of DE, DF or DI.

For ABAWD participants, or those who would be subject to ABAWD time limits if they did not have an employment (EM) exemption code applied, work hours that fall below 80 per month must be reported.

The drop in work hours must be reported by the date that would be considered timely for reporting changes under simplified reporting requirements.

NOTE Failure to report when the gross monthly income exceeds the gross income standard or the ABAWD work requirement is no longer being met, may result in a potential overpayment.
