

M Determining 1931 for a Deemed Newborn

[For MA after 2013](#)
[See the EPM](#)

When the mother in a 1931 budgetary unit (including [31-PG](#)) provides the necessary information to include the child in 1931, complete the following steps:

- In the current system month, key all information provided for the child, as well as any changes for others in the budgetary unit.
- On MADA, authorize the determination for the participants.

WARNING

When 1931 budgetary unit participants are no longer eligible for 1931, AZTECS determines each in individual budgetary units.

- Send a notice to the PI for any participants who do NOT continue to be MA eligible. No notice is required for a change in category (e.g. Deemed Newborn to 31).
