

**.01 State Assistance Budgeting Income - Actual Income - Daily Wages, Odd Jobs, Day Labor**

Use the actual income received during the prior 30-day period to project the income that is and will be available to the budgetary unit.

When a change occurs or is anticipated, use the change to project income for the benefit month. Use the income received in the prior [30-day period](#) when income for the benefit month cannot be anticipated based on any of the following:

- Pay history
- Employer verification
- [Participant statement](#)

(See Example [Actual Income 1-sta](#))
