10   Application Maintenance (APMA) - Overview

APMA is used to complete the following:

- [Add a program to an already active case](#)
- [Correct or update information](#)
- [Key a Date of Discovery](#)
- Key a [Referral Source](#)

When the One-e-App application identification number from the [Health-e-Arizona](#) referred application is keyed on APMA, and ENTER is pressed, APMS displays.

When the I DO NOT WANT AHCCCS HEALTH INSURANCE box on the application is marked, key Y in the MA REFUSED field.

When the I DO NOT WANT AHCCCS HEALTH INSURANCE box on the application is NOT marked, DO NOT KEY the MA REFUSED field. AZTECS automatically registers the MA program.
