03   Disqualifications and Sanctions - Overview

DISA is a series of workscreens behind PRAP to key sanctions and disqualifications. There are two separate DISA screens (Page 1 and Page 2) for each unique participant-program combination.

Each participant's DISA screens are used to key and display the following disqualification information for that participant:

- [CA Sanction](#) History

- CA and FS Voluntary Quit

- CA and FS Intentional Program Violation History

- CA and FS Fraud Disqualification History

MA disqualification history is keyed in the documentation lines on DISA.

The first DISA (PAGE 1) screen is used to key information regarding the following:

- Imposing and ending a CA Sanction

- Documentation regarding the participant's CA sanctions, FS or MA disqualifications

The second DISA (PAGE 2) screen is used to key information regarding the following:

- CA and FS Voluntary Quit/Reduced Work Hours History

- CA and FS Intentional Program Violation History

- CA and FS Fraud History

(See [Disqualifications Keyed on DISA](#) for procedures for keying CA and FS disqualifications)
