

### **.03 Jobs Noncompliance Notification**

When a CA participant does not comply with Jobs, Jobs completes the following:

- Sends the [NOAA](#) to the participant informing them to comply. The participant must comply within ten days from the mail date of the NOAA or a sanction is imposed. (See [Intent To Comply](#))
- Keys the Jobs Automated System (JAS), which generates an ACTS alert to FAA to impose a new CA sanction, when the NOAA expires and the participant has not complied. (See [Imposing Sanctions](#))

NOTE Jobs must send the NOAA by the fifth calendar day of the month in order for FAA to impose the sanction for the next month.
