

.03 Jobs Program Noncompliance Notification

REVISION 07
(01/01/09 – 03/31/09)

When a CA participant does not comply with the Jobs Program, Jobs completes the following:

- Sends the [NOAA](#) to the participant informing them to comply. The participant must comply by the last day to request NOAA or a sanction is imposed. (See [Intent To Comply](#))
- Keys the Jobs Automated System (JAS), which generates an ACTS alert to FAA to impose a new CA sanction, when the NOAA expires and the participant has not complied. (See [Imposing Sanctions](#))

NOTE The Jobs Program must send the NOAA by the last day to request a notice of adverse action in order for FAA to impose the sanction for the next month.
