

L CA Ongoing Sanction SAR Report

The Cases Deauthorized for Progressive Sanction (CR305) SAR Report (VJHCE100) is generated when monthly rollover occurs.

The CR305 identifies all cases that are deauthorized with the [CA DEAUTH - GRAD SANC ACTS alert](#) when rollover occurs. The report identifies, for each local office, all CA cases that have a current sanction.

The specialist Sanction Worker or backup Sanction Worker in each FAA local office CARCs each case to themselves to process the ongoing sanction. (See [Imposing Ongoing CA Sanction](#))
