.04   Removing the Unborn

When the participant is not pregnant or does not provide proof of pregnancy, complete all of the following:

- Remove the unborn from AZTECS. (See Stillbirth, Miscarriage, or Abortion)

- On MAST, remove the pregnancy indicator, Verification Code, and expected delivery date. Press ENTER.

- Key all current information into AZTECS for the participant.

- Document CADO and the case file(g) indicating FAA was not able to verify the pregnancy or the participant is not pregnant.

- Determine eligibility for other categories for the nonpregnant participant. When the participant remains eligible, contact Research and Analysis (R&A) Unit to advise AHCCCS of the correct MA category. No notice is required.
