.03   Health-e-Arizona Application Date

Key the date the Health-e-Arizona application was SIGNED as the date of application. This date displays in the DATE SIGNED column on the UNASSIGNED APPLICATIONS screen and the ASSIGNED APPLICATIONS screen.

NOTE   For manually signed applications ONLY, when the date next to the applicant's signature on the Application Summary is different than the date in the DATE SIGNED column, use the earlier of the two dates.

WARNING

The date the application is received by FAA is NOT the Health-e-Arizona application date. The date the application is received by FAA displays in the DATE RECEIVED field on the UNASSIGNED APPLICATIONS screen and the ASSIGNED APPLICATIONS screen. This is the date the countdown begins to meet the registration time frames. (See Application Registration)

For Health-e-Arizona applications referred from facilities that AHCCCS has granted the right to complete the MA interview for FAA, key the Health-e-Arizona date of application as the date of the MA interview.

Currently, specific Federally Qualified Health Centers (FQHC) and Federally Qualified Hospitals (HOFQ) are the only facilities in which AHCCCS has granted the right to complete the interview for FAA. These applications are identified with the EZ Health-e-Arizona Referral Source Code.
