03 *Race*

While racial status is not a mandatory verification requirement, make every effort to complete the RACE field accurately, as follows:

- Ask the PI the race of each participant, and key Y in the applicable RACE field.

- When the participant is UNABLE to identify a racial status, key Y in the UD (Unable to Determine) RACE field.

  NOTE   When Y has been keyed in one or more of the other RACE fields, do not key Y in the UD RACE field.
