

## J SSN Verification

**REVISION 26**  
(10/01/13 - 12/31/13)

When the participant has provided a Social Security number (SSN),, FAA obtains verification through the [State Verification Exchange System](#) (SVES). (See [WTPJ](#) for additional policy)

One of the following codes displays in the VR field on CLIS or CLPR for SSN verification:

- I - Invalid SSN (See [Unverified SSN](#))
- R - SSN Verification Requested
- V - SSN Verified
- X - Participant Reported as Deceased (See [DATE OF DEATH YYYYMMDD](#))

SSN requirements are met when R or V displays in the VR field on CLIS or CLPR. The participant IS NOT required to provide verification of SSN when either of these codes displays.

### WARNING

Do not request additional SSN enumeration verification from the participant when both of the following occurs:

- SVES shows the SSN is invalid
- The participant is in the process of [legally changing their identity due to violence or abuse](#)
