

.01 Kinship Child Only - Screening

REVISION 14

(10/01/10 – 12/31/10)

An application for CA must be screened for potential Kinship Child Only special considerations. The following criteria qualify the application for these special considerations:

- The application is for CA, or CA and other programs
- The PI is the nonparent specified relative (NPSR)
- The PI is not applying for the PI's own children
- The PI is not applying for themselves

When the special Kinship Child Only considerations are met, stamp the first page of the official FAA application with the KF/KS/LP stamp. Circle the following as appropriate:

- KF for [Kinship Foster Care](#)
- KS for [Kinship Care](#)
- LP for [Legal Permanent Guardian](#)

WARNING

Register all people in the [caretaker relative\(g\)'s family\(g\)](#) of the child for whom benefits are being requested. This is so AZTECS is able to conduct the [CA Needy Family Test](#).

When the child is receiving guardian subsidy payments from the [Department of Child Safety \(DCS\)](#) or is placed in licensed foster care or a group home by DCS, the child is not eligible for CA.
