

.01 Nonparents

Nonparents must be related to the dependent child as defined in [Nonparent Specified Relatives\(g\)](#) (NPSR).

When more than one NPSR lives in the home, complete the following:

- For CA, only one NPSR can be included in the CA budgetary unit. The PI must decide which relative is to receive CA benefits. Indicate on SPRD which NPSR is the CA specified relative by keying Y in the SPECIFY REL field next to the participant.
- For MA, either or both NPSRs in a budgetary unit may be included in the [1931](#) budgetary unit.

NOTE The MA specified relative may be different from the CA specified relative within the same case.
