

.06 Projecting Income - Changes are Anticipated - Changes in Hours Worked

When income is anticipated to change due to a change in hours, complete the following on the appropriate income screen:

- Key the [gross income \(g\)](#) received and the anticipated changes in income for the benefit month.
- Key the appropriate [Frequency Code](#).

For ongoing months, project the income using the anticipated changes in income.

(See Example [Change in Hours](#))
