

.06 Changes Verified Timely - Simplified Reporting

When a reported change is verified timely, increase the benefits as follows:

- For CA, increase benefits for the first regular benefit ISSUED after the date the change is reported.
- For FS, increase the benefits with the first allotment ISSUED ten days after the date the change is reported. The benefits must be increased no later than the month after the month the change is reported.

There is no requirement to allow ten days to notify the participant that their benefits will increase.
