

J Crossmatch Reports

[For MA after 2013](#)
[See the EPM](#)

An application ~~MUST~~ be filed and an interview or customer contact completed for a Deemed Newborn turning one. AZTECS generates and sends the [X407 notice](#) to the PI the month the Deemed Newborn turns one. The X407 informs the PI that MA will stop for the newborn unless an application is filed and an interview is completed to redetermine eligibility.

When an application is filed for other programs within the month the Deemed Newborn turns one, use the same application for the newborn's renewal.

EXCEPTION

An application and interview ~~ARE NOT~~ required for a Deemed Newborn turning one when ~~ALL~~ of the following occur:

- ~~Both~~ parents of the newborn are in the home and are active in the MA program.
- ~~A~~ review has been completed for MA eligibility no more than 90 days prior to the newborn turning one.
- [SSN enumeration](#) requirements have been met for the newborn.

AZTECS redetermines eligibility in the correct MA category for the newborn turning one when ~~ALL~~ of the above conditions occur.
