

.04 OSI Automated Fraud Tracking System (AFTS) - FAA/OSI Case History Screen - Overview

The FAA/OSI CASE HISTORY screen displays the following information:

- The number of investigations conducted on a specific participant
- The OSI unit and investigator number
- The type of program involvement
- The type of report
- The OSI case number
- The start and end dates of each investigation
- The result of each investigation

Inquire on the participant using the participant's SSN or assigned pseudo SSN, or key the AZTECS case number and press ENTER.

Review and screen print this information and place the print in the case file with the OSI referral. (See [Side Two, Right](#))

Review and screen print the FAA/OSI CASE HISTORY screen for each participant in the budgetary unit who meets the [AFTS Case Selection criteria](#).
