

## A EBT Transaction History (EBTH) - Daily History Extract

For transactions older than the 90 day record displayed on EBTH, initiate the Daily History Extract (VJHEBD01) ad hoc report in SAR. (See [SAR - EBT Reports](#)) This report should only be initiated for the following reasons:

- [Fair Hearing Request](#)
- [Office of Special Investigations](#) (OSI) Request
- [Quality Control](#) (QC) Review

### EXCEPTION

When verification that the benefit was issued to the primary payee's EBT account is all that is needed, it is not necessary to run the ad hoc report. Obtain this information from EBTH or from the EBT Daily Activity Authorization (VJHEBD01) report in SAR.
