

09 Verification of Tuberculosis - Overview

The Department of Health Services (DHS) provides a Request for Approval of Home Care for Tuberculosis Patient (TB-108) form. This form lists both the following:

- The doctor's diagnosis of contagious tuberculosis
- Statement that the patient is unemployable

DHS Tuberculosis Control forwards the TB-108 to the Program Manager (PM) of the Region that serves the participant's ZIP Code. The PM suspenses the TB-108 to the Local Office Manager of the responsible local office to ensure timely action is taken on it.

For more information regarding the TB-108, see [TC Case Completion\(sta\)](#).
